

Scaling Scrum with Scrum™

Scrum is the world's most common, and now most popular, agile development framework. Successful Scrum is based on Patterns that are used in and with the Scrum framework. 3Back's Scaling Scrum with Scrum (SSwS) course explores some of these basic Patterns, including:

- Fundamental Patterns – explaining how and why Scrum works
- Basic Scaling Patterns – extending Scrum from one Team to an entire organization
- Large Organization Patterns – augmenting the Scaling Patterns for the enterprise

In addition to these SSwS patterns, students will examine two additional popular scaling methods, the Scaled Agile Framework (SAFe) and Large Scale Scrum (LeSS) from a Pattern-based perspective.

Agenda - Scaling Scrum with Scrum

This 1-3 day customizable, intensive training class is comprised of facilitated discussion and activities designed to explore the patterns and techniques behind successfully scaling Scrum across organizations of varying size. The following topics will be covered:

Scrum Patterns

- Well-Formed Team
- Team Coach
- Business Owner
- Project Leader
- Team Leader
- Subject Matter Expert
- Definition of Done

Applying Scrum Patterns

- Traditional Scrum vs. Modern Scrum
- Difficult Work Requires Well-Formed Teams
- Product Ownership Isn't so Simple
- Don't Overload Decision-Makers

Scaling Patterns

- Distribution Team
- Consolidation Team
- Program Team

Large Organization Patterns

- Management Team
- Cross Cutting Team
- Community of Practice
- Integration and Evaluation Team
- Standards Team

Scaling Methods

- SAFe (Scaled Agile Framework)
- LeSS (Large Scale Scrum)

SSwS - At a Glance

Duration: 1-3 days, customizable

Prerequisites: CSM, CSPO, or a strong understanding of Scrum

Required Reading:

Scrum 101:A Pocket Guide

Outcome: Tools and techniques for scaling Scrum across your organization

Scrum Alliance SEUs: 7 per day

PMI PDUs: 7 per day

Outcomes of Training

Comprehension of basic patterns found in Scrum

Understanding of Scrum application to the non-development side of Program and Project Management

Ability to recognize the two primary impediments to scaling

Utilization of Program Scrum Teams to manage scaled projects

Familiarity with basic and enterprise scaling patterns

Exploration of LeSS and SAFe as scaling methods

This class provides the following credential:

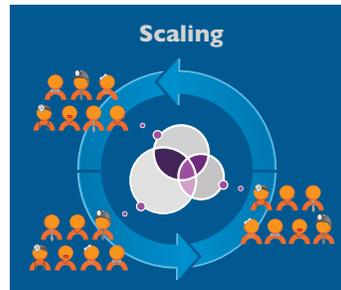

How Hard Can Scaling Be?

Building a successful Well-Formed Scrum Team can be a difficult yet rewarding endeavor. But what happens when one Team isn't enough? Let's face it, most of today's projects are just too large for one Scrum Team to tackle alone. This causes a need for many organizations to scale the Scrum framework.

Scaling is never easy. Whether scaling your family, business or Scrum implementation, complications have a way of growing exponentially alongside your efforts. Understanding the complexities of multi-Team environments and communication is critical to the successful scaling of Scrum.

3Back's expert trainers understand that a one-size-fits-all approach is implausible for each unique circumstance and environment. Therefore, Scaling Scrum with Scrum is designed to provide guidance in the form of repeatable Patterns that can be adapted and applied to nearly any organization.

Who Should Attend

Scaling Scrum with Scrum is designed for individuals who will be engaged in the widespread implementation of Scrum across the organization. This workshop is appropriate for those involved in your organization's scaling initiative, whether from a strategic, tactical, or support position. We strongly recommend this workshop for the following:

CXOs
Program Managers
ScrumMasters

Functional Managers
Product Owners
Product Managers

Project Managers
Directors

What Our Clients Say

"This is my 3rd agile transition but the only one where I've invested in training for the whole team. I can't emphasize enough how much that helps. Even when we struggle we all have the tools to talk about what's the problem, even if we can't quite get to a solution easily... The biggest win, so far, has been that my boss has greater insight and thus greater trust in us... It's made my relationship with him stronger."

-- Robert, VP of Engineering

Why Train with 3Back

We recognize the power in a well-formed team. Cultivating and concentrating that power is the backbone of our approach. With over 30 years of collective Scrum and Agile experience and implementation, we understand how to transform theory into meaningful, practical implementation that improves your team's efficiency and effectiveness.

As an Agile Recognition Authority, we offer extensive certifications and badging through our 3Back training courses and our Agile partners. Additionally, most of our programs are customizable to meet the specific needs of your organization and your team. At 3Back, we make teams better.
