

Are you struggling with Scaling?

Then get your **ASP** over here!

Agile Scaling Professional

An agnostic approach to multi-team collaboration.

Explore large Organizational Patterns to augment Scaling Patterns for the enterprise with hands-on, experiential learning in this 2-day course.

ASP delves deep into the real-world realities of scaling Agile as a mindset, rather than a recipe.

Participants learn how to:

- Make your framework (SAFe, LeSS, ...) *actually* work for you
- Find ways to uncomplicate and understand your scaling problems
- Identify sources of confusion caused by common scaling solutions
- Lead and manage large, scaled organizations
- And much more!

This class provides the ASP I Certification
